PROFESSIONAL SUMMARY

Front-end developer focused on building responsive web applications with React, TypeScript, and Tailwind CSS. Currently studying a Technical Degree in Programming and developing practical projects that include routing, API integration, local data management, reusable components, and interactive client-side logic. Looking for opportunities to contribute to web products, keep improving through real development work, and grow within a professional team.

TECHNICAL SKILLS

Languages:

HTML5, CSS3, JavaScript, TypeScript

Frameworks & Libraries:

React, Tailwind CSS

Tools & Platforms:

Git, GitHub, Vercel

Concepts & Practices:

Responsive Design, Component-Based Architecture, REST API Integration, State Management, Local Storage

PROJECTS

Formula 1 Sports Dashboard

React-based sports management dashboard consuming live F1 data from external APIs.

Technologies: React, TypeScript, Tailwind CSS

- Built responsive pages for race results, standings, drivers, teams, circuits, and calendar data.
- Integrated external Formula 1 data and organized data-heavy content into clear, easy-to-scan views.
- Used routing to separate application sections and improve navigation.

Live Demo: <https://formula-1-two-omega.vercel.app/> | GitHub: <https://github.com/SantiG11/formula-1>

Wardrobe Tracker Web Application

Responsive web application for managing a personal clothing collection and wishlist.

Technologies: React, TypeScript, Tailwind CSS

- Built structured views for owned clothing items, wishlist management, and dashboard-style summaries.
- Used reusable components and client-side data handling to keep the application organized and maintainable.

EDUCATION

Technical Degree in Programming

Universidad Tecnológica Nacional — In Progress

2026 – Present

CERTIFICATIONS

EF SET — English Certificate 67/100 (C1 Advanced)

Mozilla — JavaScript Foundations Professional Certificate

LinkedIn Learning — JavaScript Essential Training

ADDITIONAL INFORMATION

Languages

Spanish – Native

English – Professional Working Proficiency

Open to front-end, web development, and related technology roles. Available for remote, hybrid, or on-site opportunities.
